

### 3. Technical Data

Technical data:		
Maximum load	[kg]	60
Maximum tilt torque	[Nm]	150
Coefficient of friction $\mu$ (during tilt)		Min 0.6
Materials approved for lifting		Only smooth, dry, non-porous materials, such as sheet metal, glass and laminated wood
Minimum vacuum level	[kPa]	-0.5
Compressed air requirements		Minimum 5.5 bar dry filtered air
Temperature range	[°C]	+5 till +40
Environment		For indoor use only; not ATEX-certified
Weight without tilt function 7456101	[kg]	21
Weight with tilt function 745605	[kg]	26
